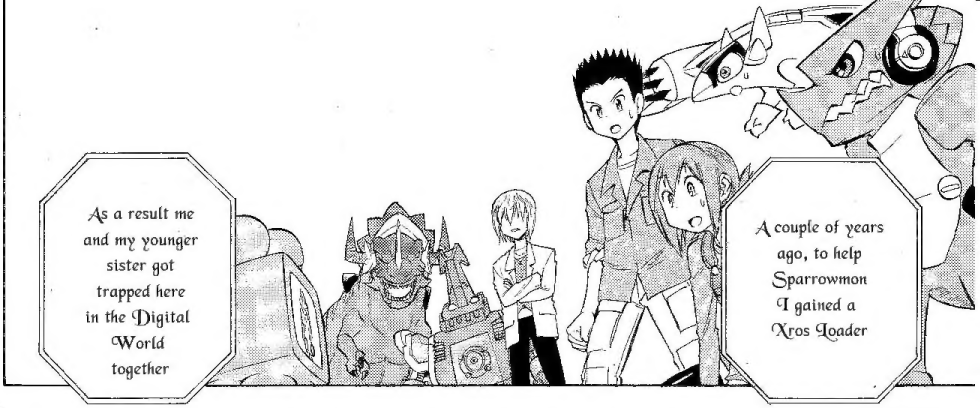
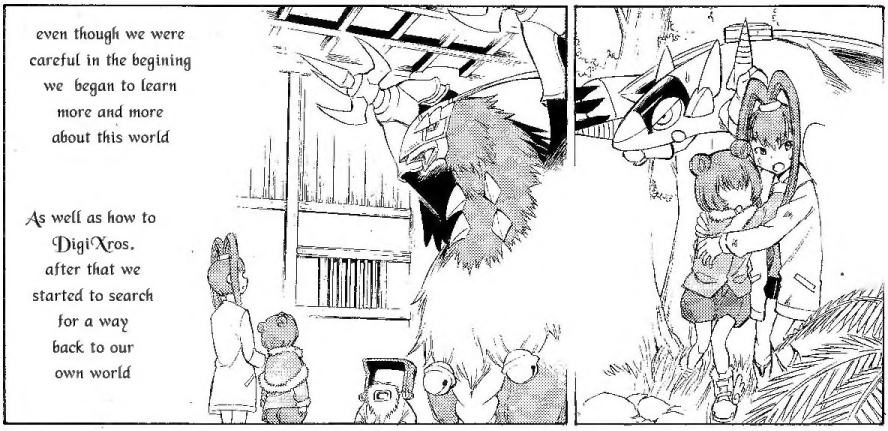
Fret not dear Taiki
even though he truely is evil he would most likely loose any interest after you loose the ability to DigiXros
?
What's going on!
Why am I in this?!
their said to be connected to our world, Taiki
Maybe after this you can meet up with Akari and your other firend and return home
but the rumors of the CodeCrown being unlimited in power are intersting
I'm not sure if the information is true
What about you Nene?!
you're not thinking of staying here are you?!
Wait!
don't tell me you plan to help him further ?!
weren't you going to go home with Kotone after all of this!

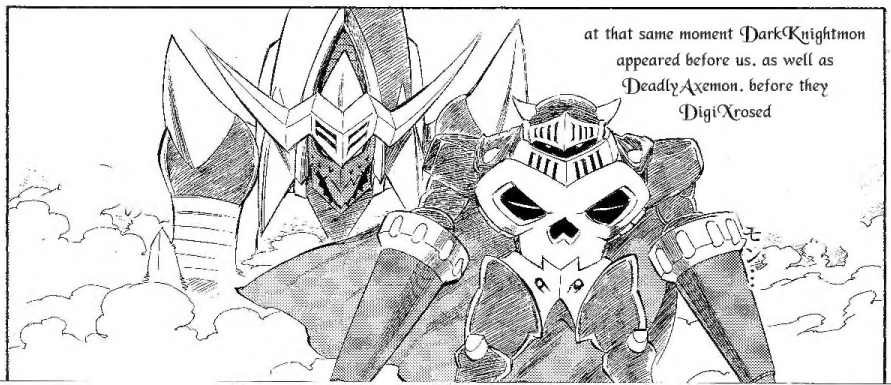


As a result me and my younger sister got trapped here in the Digital World together
A couple of years ago, to help Sparrowmon I gained a Xros Loader



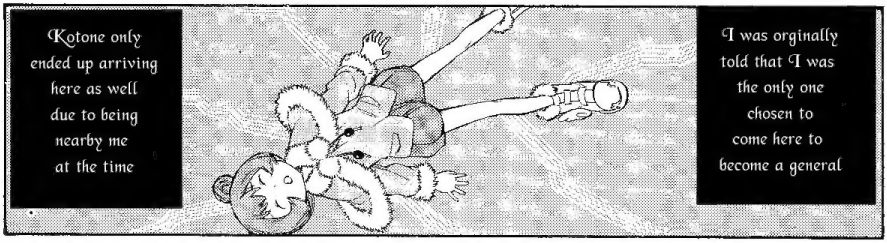
even though we were careful in the begining we began to learn more and more about this world
As well as how to DigiXros. after that we started to search for a way back to our own world

Though Kotone's health started to decrease
she fell asleep and never woke up

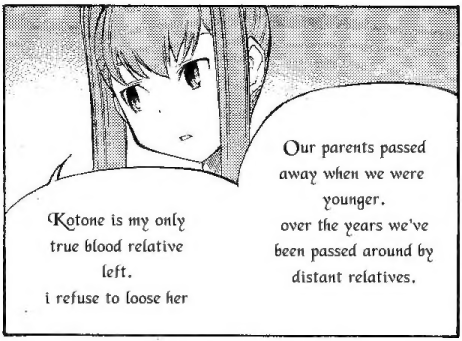


at that same moment DarkKnightmon appeared before us. as well as DeadlyAxemon. before they DigiXrosed

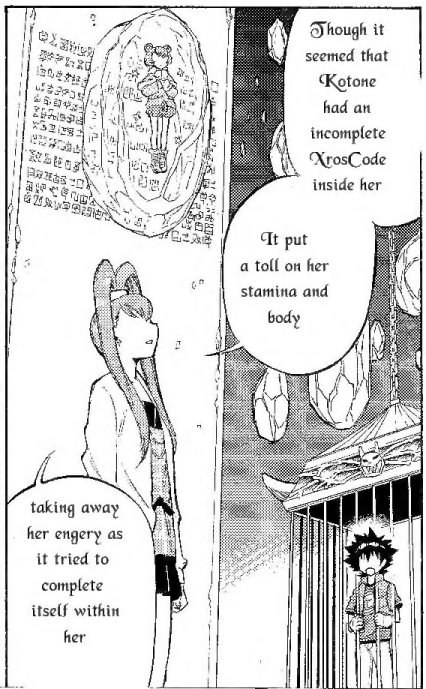
Sothen that form we saw is a DigiXrosed one?!
It makes more sense now



Kotone only ended up arriving here as well due to being nearby me at the time
I was orginally told that I was the only one chosen to come here to become a general



Kotone is my only true blood relative left.
i refuse to loose her
Our parents passed away when we were younger.
over the years we've been passed around by distant relatives.



Though it seemed that Kotone had an incomplete XrosCode inside her
It put a toll on her stamina and body
taking away her engery as it tried to complete itself within her

If the Darkness Loader can remove the Xros Code from Kotone
then I don't mind helping him at all. Taiki dear
Then you...

That is the deal I have made with him
A witch that shall cover this world in darkness
I will do whatever I must to protect her. even if it means becoming a witch
She's lying.. right?!
That.. it can't be true
this.. it is not forgiveable
Nene set you free so that you would not be turned to DigiCode and become absorbed by DarkKnightmon
!!
I think I under-stand..

This... can't be over looked
tch
should have destoryed him when i had the chance
ALL OF US LIVE SEPERATE LIVES UNTIL NOW
HOW CAN WE ALLOW SUCH A SAD THING TO BE OVER LOOKED
WE HAVE TO JOIN TOGETHER
AND END THIS BEFORE IT BECOMES IMPOSSIBLE
WE CAN NOT ALLOW DARKKNIGHTMON TO USE THEM AS HIS PAWNS!
IT'S UNFORGIVABLE TO JUST SIT HERE AND WATCH THIS ALL UNFOLD

Please take me to Nene!
You're the only one here who can use the XrosLoader! I have the log to the zone their in registered in my own body
we can go over to them and stop them!
please!
Kiriha! I ask of you to help
We have to save Taiki!
I need him to help me save the Digital World
I know I can't give him to you
I ask this of you as well!
you really are an idiot
Taiki is fighting to make your dream happen.
if you join my side he will just leave
hah?!
please! Kiriha! I will even join you
but we can't let him use Taiki!
.....

However
that Dark-Knightmon is getting on my nerves
I think I shall crush him under my foot
hah
Plus I don't want useless digimon
but!
like you

Hey is he really helping them?
that is rare of him
I'M BEING SERIOUS HERE!
YOUR JUST SAYING WHATEVER YOU WANT AREN'T YOU!

Now useless digimon
shall we get going?
cht
you call us useless yet even when a small flame is lit an inferno can soon appear

do you think he's what they call Tsunde-
shush! don't say anymore he will hit you later!

now to that digimon who got on my nerves
IF YOU LET THE FLAMES BURN WILD THAN
IT IS YOUR FAUT NOT MINE THAT THE INFERNO HAS SPREAD!
who turned a noble lady into a witch of darkness
I do wonder if I can still be a king while fixing this shameful deed
this can't be real

IT'S NOT FAIR
none of this is fair!!
What are you going on about?
You... had to carry all this burden on your own
You even chased us to spy on us dispite the risks
Everything up till now I have done by choice
I've known what i've been doing from the start
tricking you, harming other digimon.
many have called me a witch
but...
I know I know
You can't help but want to help
even after watching you all this time
I don't think I ever understood that part of you
E-eh?! U-um shouldn't you be more worried about your state here?
ふぁさっ
you must be cold

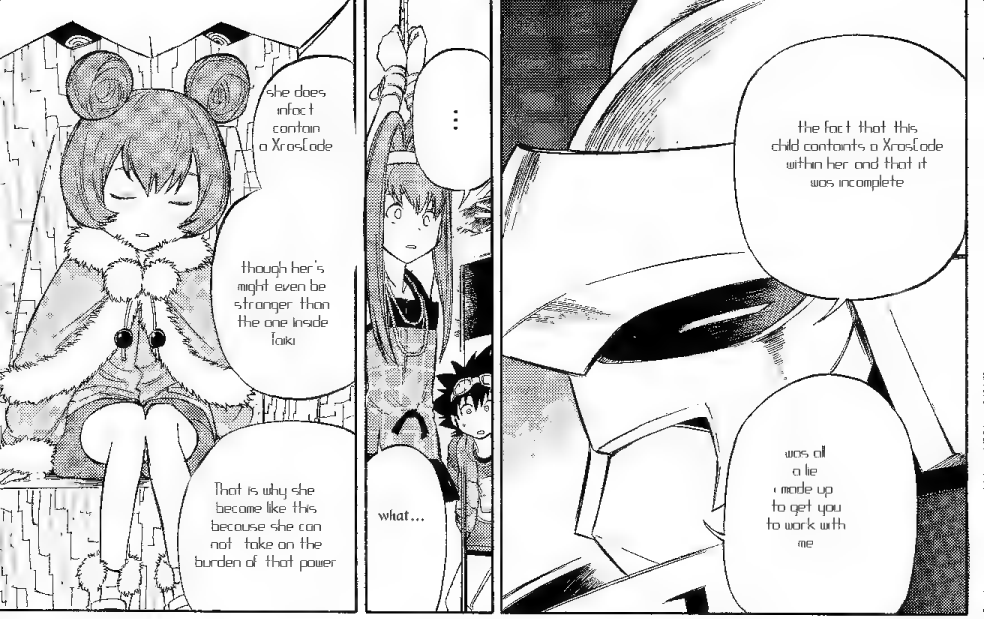
There are many digimon who blame me and will attack her in my place!
Please! Taiki Kudou! Take care of Kotone for me!
No, I am fine
This is just a small thing I can do for you right now
My heart and body have become cold long before this anyway
and even if it's shamless
I want to ask to be able to depend on you!
Please protect them in my palce! Taiku Kudou!
and Sparrowmon!
I kept lying to her, telling her only good pure things because I cared too deeply for her!
Do you think Kotone or Sparrowmon would become happy with this?!
Even if it seems hopeless we will find a way to save her and stop this!
h-heh...?
I refuse!
What?!

After all of this you have to fix the problems you created!
I will help you! but you can't run away!
B-but.. Taiki....
I....
you seem like you are good at observing people
but you failed to notice something .
even if i can't DigiXros anymore
I will still fight with them
I won't let Shoutmon or anyone else down
So that's why You can count on me to help you
so you can't run away Nene
we can overcome this together
.....
You're strange Taiki Kudou
Why do you help others achrive their dreams without a second thought?
The color of Red consumes your heart... it's too pure

you're so different... stronger than I am
Why do you help others with their dreams but not your own...
!!
Even though it is my falut for not reading the atmosphere
we must get going with our plans here
Children
It's time to start
my own?
I put these on?
yes, as you can clearly see they're cuffs
so yes you will put them on your wrists Alene
It's not that I doubt you will stay through the whole thing

Alright i'm fine with that
NENE!
Humans are still not that clear to me so it is best to be prepared
you both would want a little insurance on the other side correct?
Just a small amount of doubt can turn a human heart it seems
perfect now that everything is all set and ready
we can begin our ritual it's been years since I have found the ritual and planned to fulfil it
So shall we begin?

My frozen soul can't stop this wounderous feeling I now have
KO-TONE !!
Up until this moment I would have never thought that I would be able to do this ritual after all it's all thanks to you Nene
Because of your actions My dream has become reality soon this world shall truely become my own
.....
Oh yes
would you now like to hear a story have kept from you?
Story?



she does infact contain a XrosCode
though her's might even be stronger than the one inside Taiki
That is why she became like this because she can not take on the burden of that power
what...
the fact that this child contains a XrosCode within her and that it was incomplete
was all a lie I made up to get you to work with me

what are ...you trying... to say...
why.... why are you telling me this... now...

instead you shall continue to live in a world without your beloved sister and bare your sins that you chose to make
isn't this grand? you shall not loose your life nor your heart Nene
Not you Nene compared to her you are the child in terms of power
She is the one who I will use as my general in this war

why...
fufu

!!
now, look
your sins are growing
becoming a large shadow

What is that?!
It's comming out of her shadow!
Shademon!!
The digimon from the demon world whom feeds of one's fears and despair before appearing
what is...
the final thing needed for my plan
I put it's data inside of you from the start
by absorbing the Xros Code of 3 generals it will create the darkness Loader
And with that you humans will no longer be needed here

We can not afford to make any hesitations or mistakes
Follow Rampage-Greymon's path as we break through them!
